Both of them look beautiful! Of the nominees, I've only seen Big Hero 6 and How to Train Your Dragon 2. said, I bet on three of them: Boyhood, Birdman, and The Grand Budapest Hotel.

They did not show Boyhood at all, and it took them FOR-FREAKING-EVER to get Birdman, but they showed fecal matter like The Identical, Left Behind, and Kirk Cameron's Saving Christmas as soon as they came out. This classic moment in SNL history? Speaking of memories, the soundtrack alone was enough to make me reminisce on my own childhood/adolescence.

Come to think of it, Simmons FTW!! Best Actress in a Supporting Role Patricia Arquette
If anything, her performance in 2004's A Series of Unfortunate Events was far superior.

There are moments where the story appears to lose steam, and I was not satisfied with the ending at all.
