said, I bet on three of them: Boyhood, Birdman, and The Grand Budapest Hotel.

Both of them look beautiful! Of the nominees, I ve only seen Big Hero 6 and How to Train Your Dragon 2.

They did not show Boyhood at all, and it took them FOR-FREAKING-EVER to get Birdman, but they showed fecal matter like The Identical, Left Behind, and Kirk Cameron s Saving Christmas as soon as they came out.

This classic moment in SNL history? Speaking of memories, the soundtrack alone was enough to make me reminisce on my own childhood/adolescence.

If anything, her performance in 2004 s A Series of Unfortunate Events was far superior.

Come to think of it, Simmons FTW!! Best Actress in a Supporting Role Patricia Arquette

There are moments where the story appears to lose steam, and I was not satisfied with the ending at all.
