At the end of the day, the Oscars should be about ART.

Verdict: twelve years (and five dollars) well spent.

Boyhood won t resonate with everyone.

Either Patricia Arquette or Emma Stone is gonna get it.

Still probably worth checking out, though.

She remarries to an abusive alcoholic (twice) and that makes for some scenes that are truly difficult to stomach.

Boyhood is not so much a movie as it is a long, intricate, ambitious video scrapbook of someone s young life and a contemplation of life itself.

It boils down to Keaton and Eddie Redmayne, but I d like to see Keaton win, because he was fantastic in Birdman and re-cemented his rightful place in the movies.
