Come to think of it, Simmons FTW!! Best Actress in a Supporting Role Patricia Arquette

Best Animated Feature Big Hero 6 The Boxtrolls How to Train Your Dragon 2 Song

This classic moment in SNL history? Speaking of memories, the soundtrack alone was enough to make me reminisce on my own childhood/adolescence.

Patricia Arquette is easily the best actress in the whole film (and Oscar shoo-in!!) as a single mother who bends over backwards for her children.

Both of them look beautiful! Of the nominees, I've only seen Big Hero 6 and How to Train Your Dragon 2.

Simmons for Whiplash Carly Says: Huh, I'm surprised they included Robert Duvall, because The Judge got some pretty meh reviews this summer.

said, I bet on three of them: Boyhood, Birdman, and The Grand Budapest Hotel.

They did not show Boyhood at all, and it took them FOR-FREAKING-EVER to get Birdman, but they showed fecal matter like The Identical, Left Behind, and Kirk Cameron's Saving Christmas as soon as they came out.
